

Crossfield Wind Farm

Chatham-Kent, ON

up to 200 MW

Project Overview

Capstone Infrastructure Corporation (Capstone) is proposing to develop and construct the Crossfield Wind Farm (the Project), a wind generation facility of up to 200 MW in the Municipality of Chatham-Kent Ward 2 (South Kent) and Ward 3 (East Kent).

Ontario's electricity sector is seeing growing demand and the Province, through the Independent Electricity System Operator (IESO), is planning to undertake large-scale resource acquisition to ensure sufficient supply will be available into the 2030s and beyond.

The Project is in the initial early phase of development. We are seeking to engage in meaningful, early consultation with the community in advance of submitting a proposal to the IESO and potentially securing a contract.

This newly launched website will be updated regularly to provide up-to-date information about the Project as it becomes available. Please see below for details regarding the June 26 Community Information Session.

Key Project Updates

Public Notice of Community Meeting

Capstone is pleased to invite you to a Community Information Session on Thursday, June 26 in Blenheim to learn about our company and the proposed Project. We anticipate this to be the first of two engagement dates this summer, with another more detailed session coming in the next few months.

COMMUNITY INFORMATION SESSION

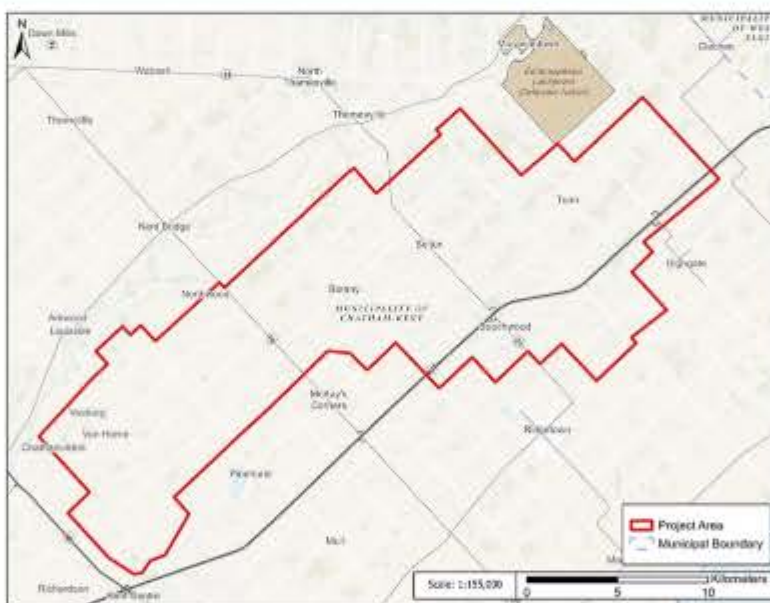

Date: Thursday, June 26, 2025

Location: Willow Ridge Golf & Country Club
439 Chatham St. S., Blenheim, ON N0P 1A0

Afternoon Session: 1 pm - 4 pm
Evening Session: 6 pm - 8 pm

For those unable to attend, the information and materials presented at the Community Information Session will be posted on this website following the meeting.
